

Multi-functional Ironing Board

Model: MPCMFIB

Manufactured by advanced processing technology, and integrated with air suction, air blast, the ironing board is fits to iron various kinds of high-grade and valuable clothes.

Features:

- 1- 1400x500mm working board made of superior quality of aluminum alloy.
- 2- With vacuum air suction and air blast switch function;
- 3- With lighting function;
- 4- With electric steam iron and iron tray;
- 5- With double sides operation function;
- 6- With steam injection heating on the table-board function;
- 7- Imported brands of solenoid valves, thermograph, etc.

Specifications

Model	Application	Steam pressure	Steam consumption	Power supply	Power	Overall dimension	Weight	External supply required
MPCMFIB	Utility	0.4-0.5Mpa	5kgs/hr	380V/50HZ	1.75KW	1600X500X1900mm	100kgs	Steam supply

Vacuum Ironing board

Model: MPCMVIB

Features:

- 1- 1500x800mm working area
- 2- Upward exhaust structure
- 3- Rust-proof network under the sponge ensures long working life.
- 4- High temperature resistant sponge ensures better ironing effect and longer lifespan.
- 5- The vacuum air suction function is available for both table-board and the rocker arm, and it is automatically switched when needed.

Specifications

Model	Application	Steam pressure	Steam consumption	Power supply	Power	Overall dimension	Weight	External supply required
MPCMVIB	Utility	0.4-0.5Mpa	10kgs/hr	380V/50HZ	0.55KW	1500X950X1800mm	50kgs	Steam supply
